

Our Premise

The Solution

1. **Weekly Activities Journey** -- 1 topic a week. Offline activities. Kit will be sent . Also exploring a Kit less version
2. **Curated Content** - Videos, movies, books under the premise that kids are deep

Ages : From 4-6 Upto 12

DEEPKIDS

DEEPKIDS

Iam "I Am"!

"I Am" is the name of the character of our app

I Am helps the kid navigate the app

At the start , I Am introduces herself/himself & then asks for the kid introduce themselves

I Am Character Exploration

Inspired from Narashimar - since Prahalladhan learned everything even when in womb & was born enlightened

Show Yourself

Activity - profile photo / **Create your Avatar**

draw & paint yourself - self portrait

Self drawn Profile Picture

WEEK 1

Family Assisted

Create Your Own Colours

Activity - **Create & Name Your Own Colours**

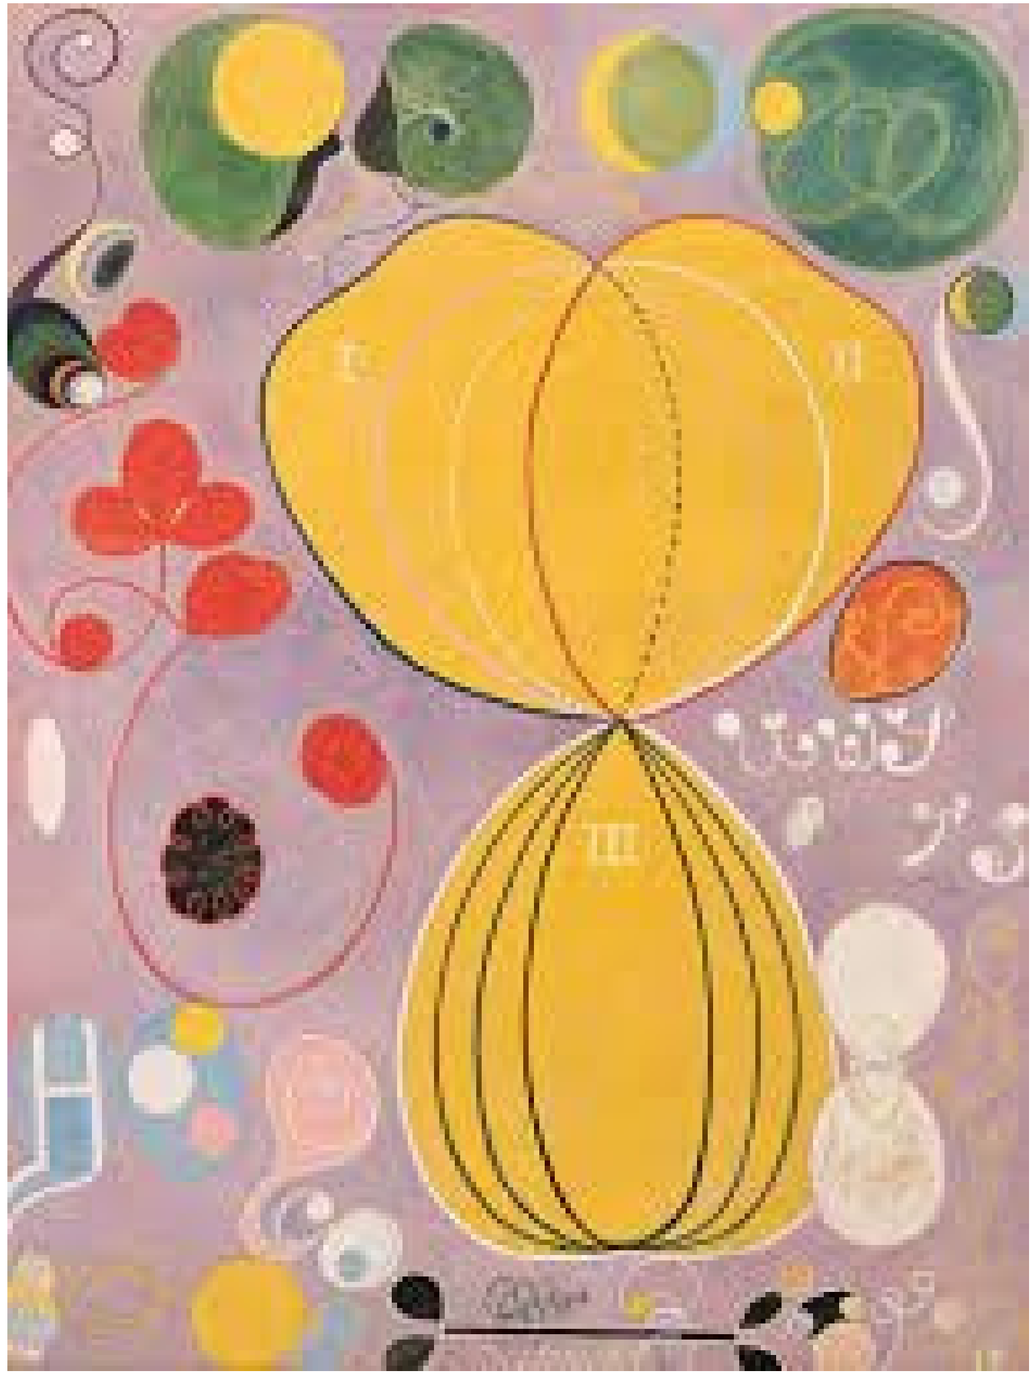

Mix the paints, make your own colours. fill in the bottles given. Give them your own names. Use these paints for all your art.

Kit - Primary colour squeeze bottle, empty paint containers with empty labels, Colour Mixing Card, Paint brushes,RED, BLUE, GREEN torch lights

All Light = White

All Paint = Black

Video - Mixing colours

WEEK 2

With Family?

Talk Through Art

Activity - **Talk Through Art- Draw It, Sing It, Act it, Dance it**

You want to ask your mum for chocolate? - Draw it to her, Sing it, or Act it, Dance it

Among Kids, Guess what the picture says game -guess each other's art

Kit - Painting Stand with black board, white magnetic board, canvas sheets , Sketch, Colour Pencils, Crayons, some kids music instruments ?

Example: <do the activity ourselves & record>

Create as much art as you want & Post.

< paint on t-shirt ? ,

They get to do some crazy stuff

Normal conversations, becomes fun

Understanding between each other improves

Art is a more subjective & abstract language compared to our more abstract spoken, written languages.

Thinking in Art, or the act of converting a spoken language to an art in their heads help them connect with the fundamental philosophies of communication & art

About:

When humans first came about, there was no language yet. They started

Connecting Through Art - they drew, sang, danced, acted, spoke, wrote.

To Pass on important knowledge

Represent thoughts, ideas & to understand, to connect.

<curate clips> For parents & for kids

WEEK 3

Family Assisted?

Become The Other

Activity : **Become The Other - Pretend Play**

1. Imagine you are your mom, dad, anyone of your choice. Enact. wear her saree/his shirt
2. Imagine you are < > , draw, paint/enact/sing etc emotions for various scenarios.
3. Scenarios. & how would <> react?
4. Better activity?

Kit: Pretend play accessories?- moustache, cape, "god outfit?", insta-able scenery bgs?

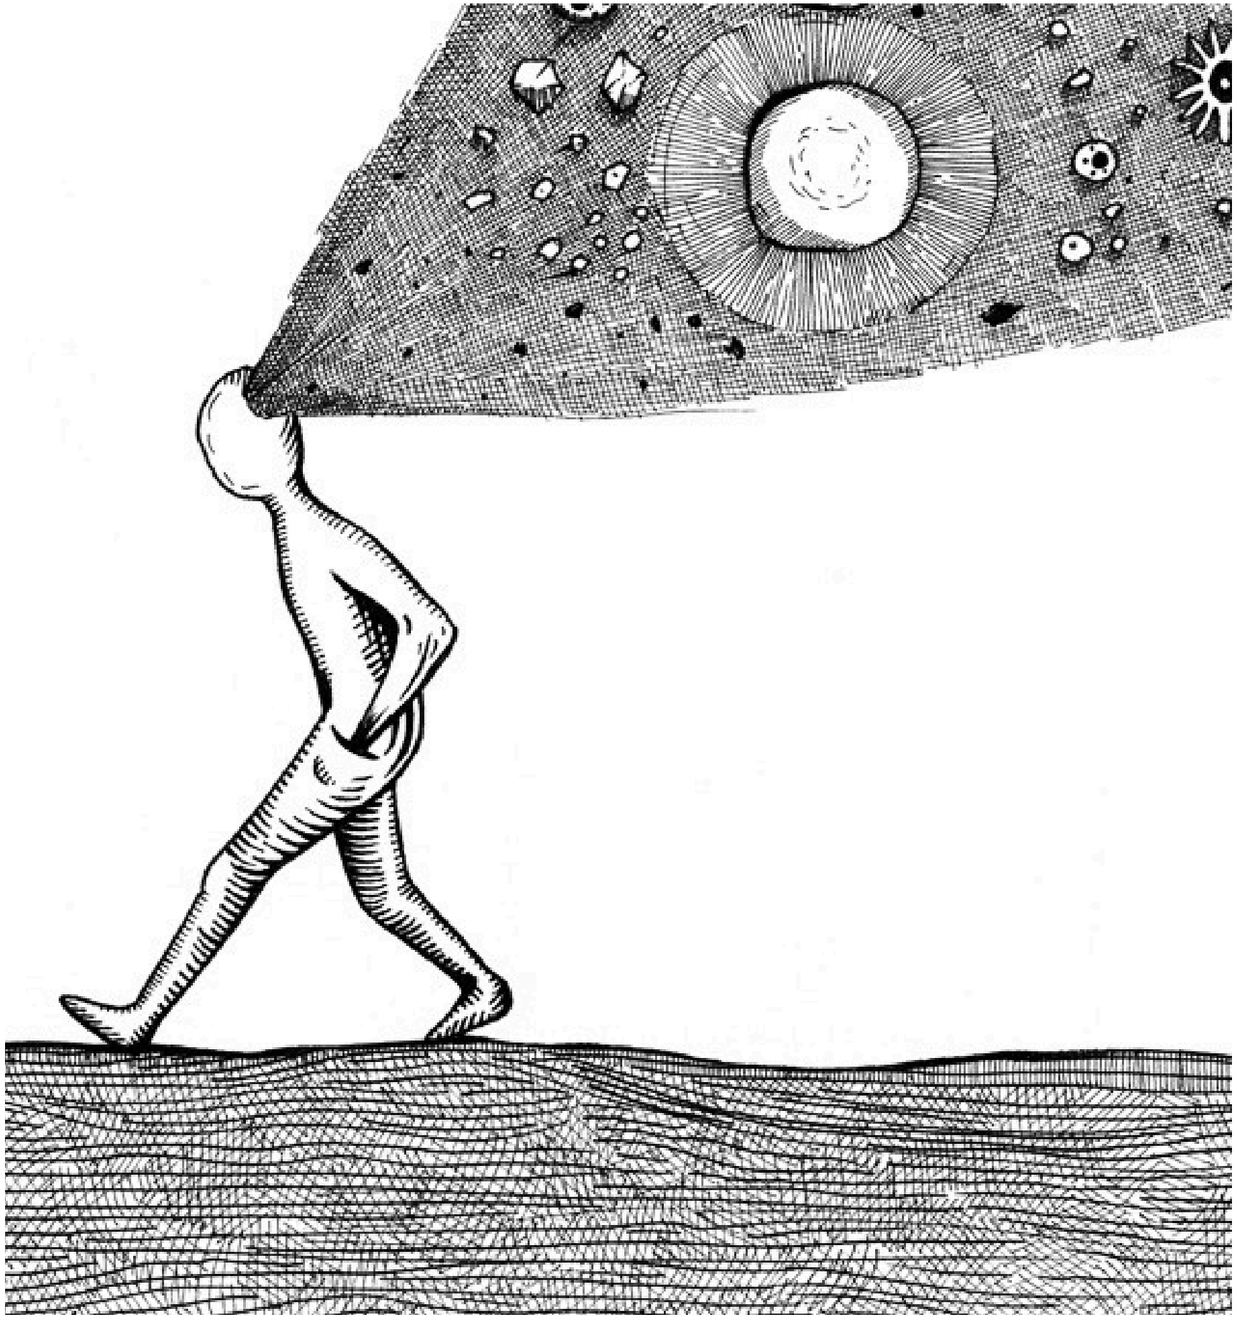

Guess Who Iam Game , ad mad

Create as much art as you want & Post

They love to imagine & imagining themselves to be someone they know will be very interesting for the kid

It will also help them empathise, see new perspectives, because they will honestly imagine to be that someone

WEEK 4

Cohort Activity

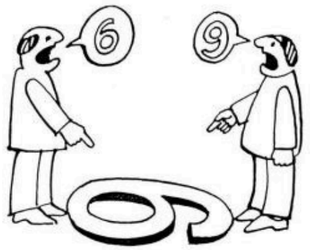

All Perception Is Subjective

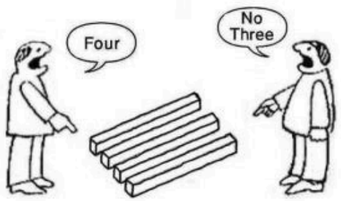

Activity : **Art your meaning**

1. Draw images that come to you for these words - like Love, Joy, Care, Truth, Chaos, etc
2. Group Activity ? - what do you see in the image?

Create as much art as you want & Post

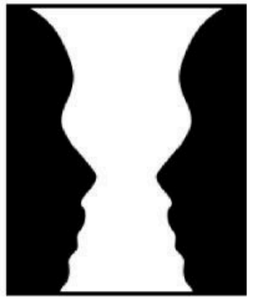

Kit :

What do you see?
By shifting perspective you might see an old woman or a young woman.

They are just learning words & trying to make sense of them. & everything is unadulterated now.

Painting the words, will be a treat for their imagination

It will also help them deeply connect with the idea of subjectivity in language, communication, life & within

Through art kids can bring together their ideas around each word, through which they can also see themselves, & how the world around them is shaping their perception

As school, learning , subjects are honing them to think objectively, a mix of some room for subjectivity will be a good balance.

WEEK 5

Individual Activity

Invent a word

Family Assisted / Individual

PROJECT !

<Name>'s Dictionary - Art Version

Draw Your meaning for words

Kit : Send a dictionary we created with 1 word in each page, for them to draw their meaning for the word & write the meaning also.

Leave enough blank pages for them to write their own words.

<this is a journey activity - will continue from this week onwards>

WEEK 6

Individual Activity

We are all the same

Activity: **Find You In Others**:

1. See what is common between a monkey & you, between mom & dad, between you & mom, between stone & you.
2. you & a plant

About:

we are used to analysing how others are different from us. Let's think about how we are the same.

We are all the same. We forget that, when we start measuring how different or "superior" we are to other humans, other animals, etc. Kids will have fun understanding how similar we are to everything else in the universe. (dyk? banana & Humans have 60% same dna!)

WEEK 7

Family Assisted

New Plant Friend

Activity: **New Plant Friend**

Kit : Plant kits with seeds. Name the plant. Raise the plant.

<app will give reminders for watering, fertilizing etc &

talking to them, singing to them, playing them music , etc>

Take photos & videos everyday.

Encourage them to talk to the plants daily and have a relationship with them to make them feel connected to this task

<this is a journey activity - will continue from this week onwards>

<side journey to be built for plant death scenarios>

“Three prisoners have been tied up facing a cave wall since birth. Behind them is a fire that casts shadows on the back wall as people pass by. This is the only reference point the three men have for the world. Eventually, one of the prisoners escapes, runs outside and sees the world for the first time. He’s stunned that there is more than just shadows. But when he tells the others, they don’t understand, and call him crazy. What if the world we know is no more real than shadows on a cave wall?”

WEEK 8

Family Assisted

Things Are More Than What They Seem

Activity: **Things are more than what they seem**

1. Draw things like they are not - we know we are limited by perception. Let us take the help of our imagination in this exercise to overcome the limitation of perception
2. Learn to think "not in categories" - Draw 10 houses - make each unique. name each house
3. Draw/Dress up & Act as 10 kids. Individualize each
4. Similarly for older kids - 2d world
5. cylinder percieved from 2 angles as circle & rectangle, communicate & build the shape

“A new ship – let’s call her the Athena – sets sail on a round-the-world trip, waved off by a huge crowd. As time goes by, each part of the ship is replaced: every nut, bolt and plank. Even the crew. When the Athena pulls back into port, the crowd cheer as vigorously as before. To them, she looks much the same. But are they cheering on the same ship? What makes the Athena the Athena?“

WEEK

Exceptions Abound

Activity: **Exceptions Abound**

Think of - write them, draw them, show them?

1. Something good , that is bad.
2. Something bad that is good
3. Something wrong , but is right
4. Something right, but is wrong

Beyond good & bad, right & wrong, god & evil, is Who We Are, is The Self, Is The Truth

THIS WEEK

Leaf It To You

Activity: **Leaf It To You**

Kit : Box & book to collect whatever they are collecting

Collect anything & everything.

THIS WEEK

Become a Collector

Activity: **Become a Collector**

Kit : Box & book to collect whatever they are collecting

Collect anything & everything.

esta semana

You Say Why!

Activity : **You Say Why**

Kids ask whys to adults all the time. Let's keep asking the kid why

Each of you paint the same thing. Let the kid judge which is most beautiful. Continue asking why he /she thinks that is beautiful. & continue asking why similarly to every answer.

Do it that week every time you get a chance & record

<app will remind parents now & then to do why bits>

PROJECT !

<Name>'s Masterpieces

Can be anything. Their first art piece of theirs to go on the “Museum of Modern Art - Kids” - we will unveil as a show, let people bid (optional to put on sale) , etc

this week!

Inside = Outside

Activity: **Inside = Outside**

1. Bring from what outside, what represents you are inside.
2. More activities ?

About:

Life & Self are interconnected. We are a product of the outside. Outside is the product of us. We perceive the world & just our act of perception alters it.

Life is to see ourselves. All of Life is a mirror.

this week

Who Am I?

Activity: **Self Portrait**

1. trace on a photo or look at yourself in the mirror and draw
2. Collage projects
3. who am I to different people, in different places
4. More activities ?

WEEK

A Zoom meeting like parents have, but obviously better!

Activity: **A Zoom meeting like parents have, but obviously better!**

Look at paintings & kids talk about what they see, in a cohort group discussion.

Continue the discussion with your other friends, parents, etc, if you want to.

Know Your Roots

Activity: **Family Tree**

Kids should interact with parents and learn about family members and label accordingly on the chart

Kit: A model family tree , Family tree chart with empty spaces to add names , labels

We can understand deeper about ourselves when we know our history & our roots.

Continue the discussion with your other friends, parents, etc, if you want to.

Be Your Own Person

Activity: **Be Your Own Person**

Do your chores, clean your mess, take care of yourself, take care of others , help with cooking.

Games your paati ,
thaatha played

Life is Art is exploration!

Tripping On Music

Activity: **Tripping On Music**

Let kids share & listen to each others' music suggestions this week.

Cook with Tunes

Activity : **Cook with Tunes**

Put your favorite music on & start cooking.

Photos of the dish

Kit : Recipes book. Empty pages to make their own recipes

PROJECT !

Band & Perform

Form a band with anyone: friends, family, cohort friends, animals, strangers, anyone.

Give any name.

Within the band figure out below

Lyrics - Write anything . Anything. Your own words, random words, anything, story, anything. 1 full page

Tune - create any tune of your own

Perform - <create an event out of it>

Instruments - optional

Everything is Temporary ;
Everything Is always changing

Our changing body

Take & Give More

Waste Less Living

Activity : Find ways to use waste

1. Worn out old clothes , that no one can wear? - What else can you do with it?
2. Find a waste problem at home & solve for

THiS WEek

We Experience
& We Co Produce!

THIS WEEK

Meditate Your Way

Collection
Give Away!

What is Real?

Infinity = 1 = 0

Anything & Everything

Activity: **Identify OxyMorons In You**

About:

We can be & are anything & everything.

Each choice is an individual, stand alone choice

With freedom to choose anything.

Awareness to the choices.

Anything & Everything

Activity: **Identify OxyMorons In You**

About:

We can be & are anything & everything.

Each choice is an individual, stand alone choice

With freedom to choose anything.

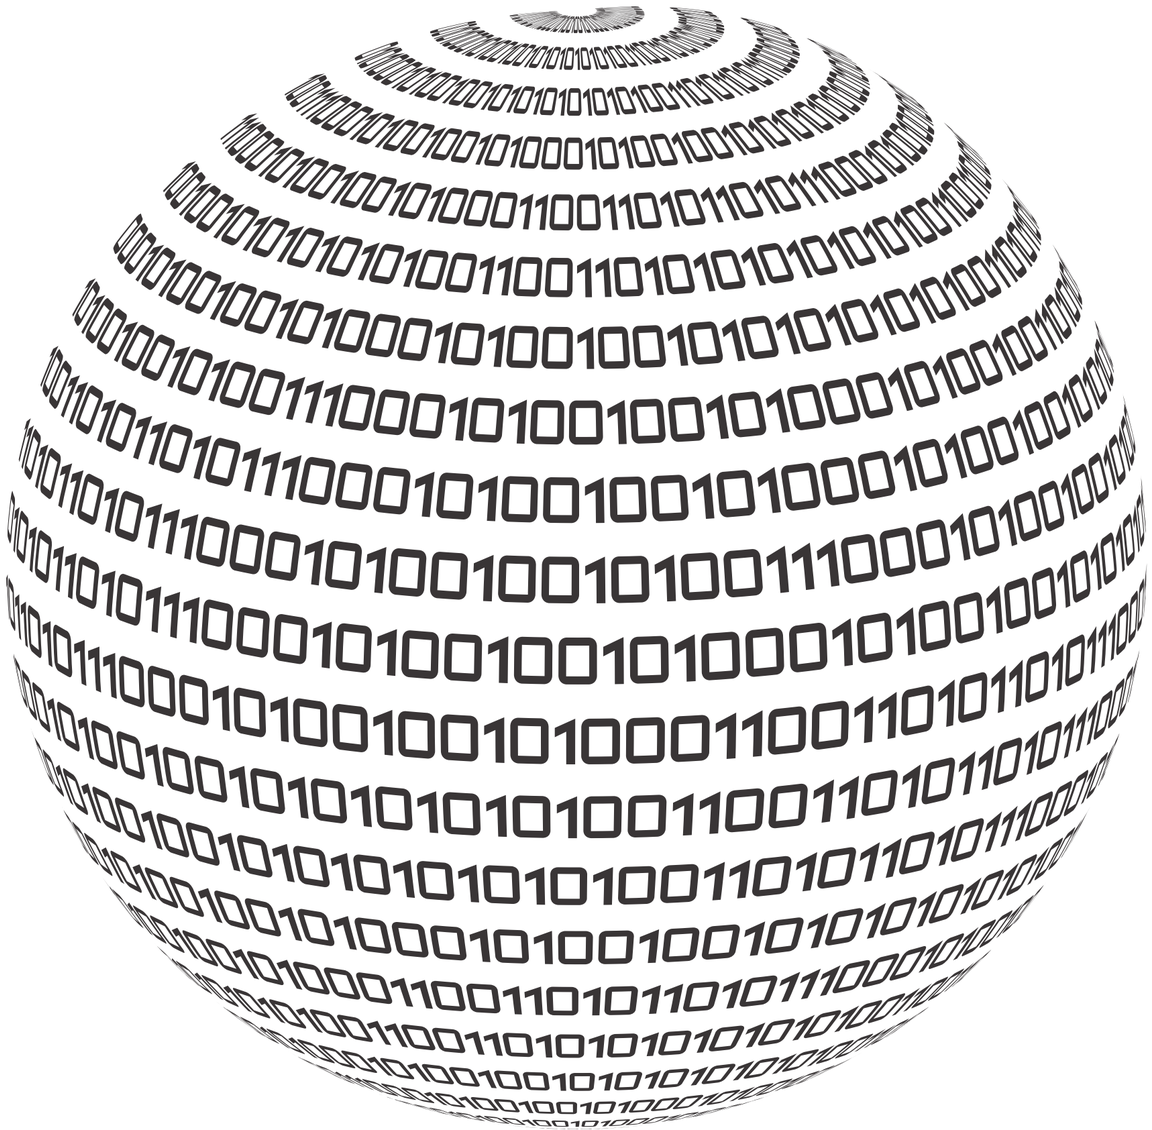

Awareness to the choices.

Brain - Master & Emissary

There are true things that cannot be proven!

within a category are differences
- order & chaos nestled within
each other

Science Around You

Coded World

Look Up

Activity: **Sky Watching**

1. Observe the surroundings and create weather report for the week
2. Map the night sky

Kit: A board , paper cuttings of sun, clouds , cloud w/ rain , snow etc, a sketch

Hasthakala

Infinity

Zero

Patterns

Explore Your Body

Activity: who can not blink for 30 s

can you move a part of the body

Swallowing

Breath, blinking swallowing - both voluntary & involuntarily

Explore Your Breath

Activity:Hold breath longest

Explore Your Breath

Activity:Hold breath longest

Observe A Flame

Lifes maybe different But Also Same

Houses of different Animals

Habits of different Animals

Group Games - Ad Mad

Group Games - Pictionary

Group Games -

Invent A Game

Interact With Animals

Activity: Feed a street dog & name him / her

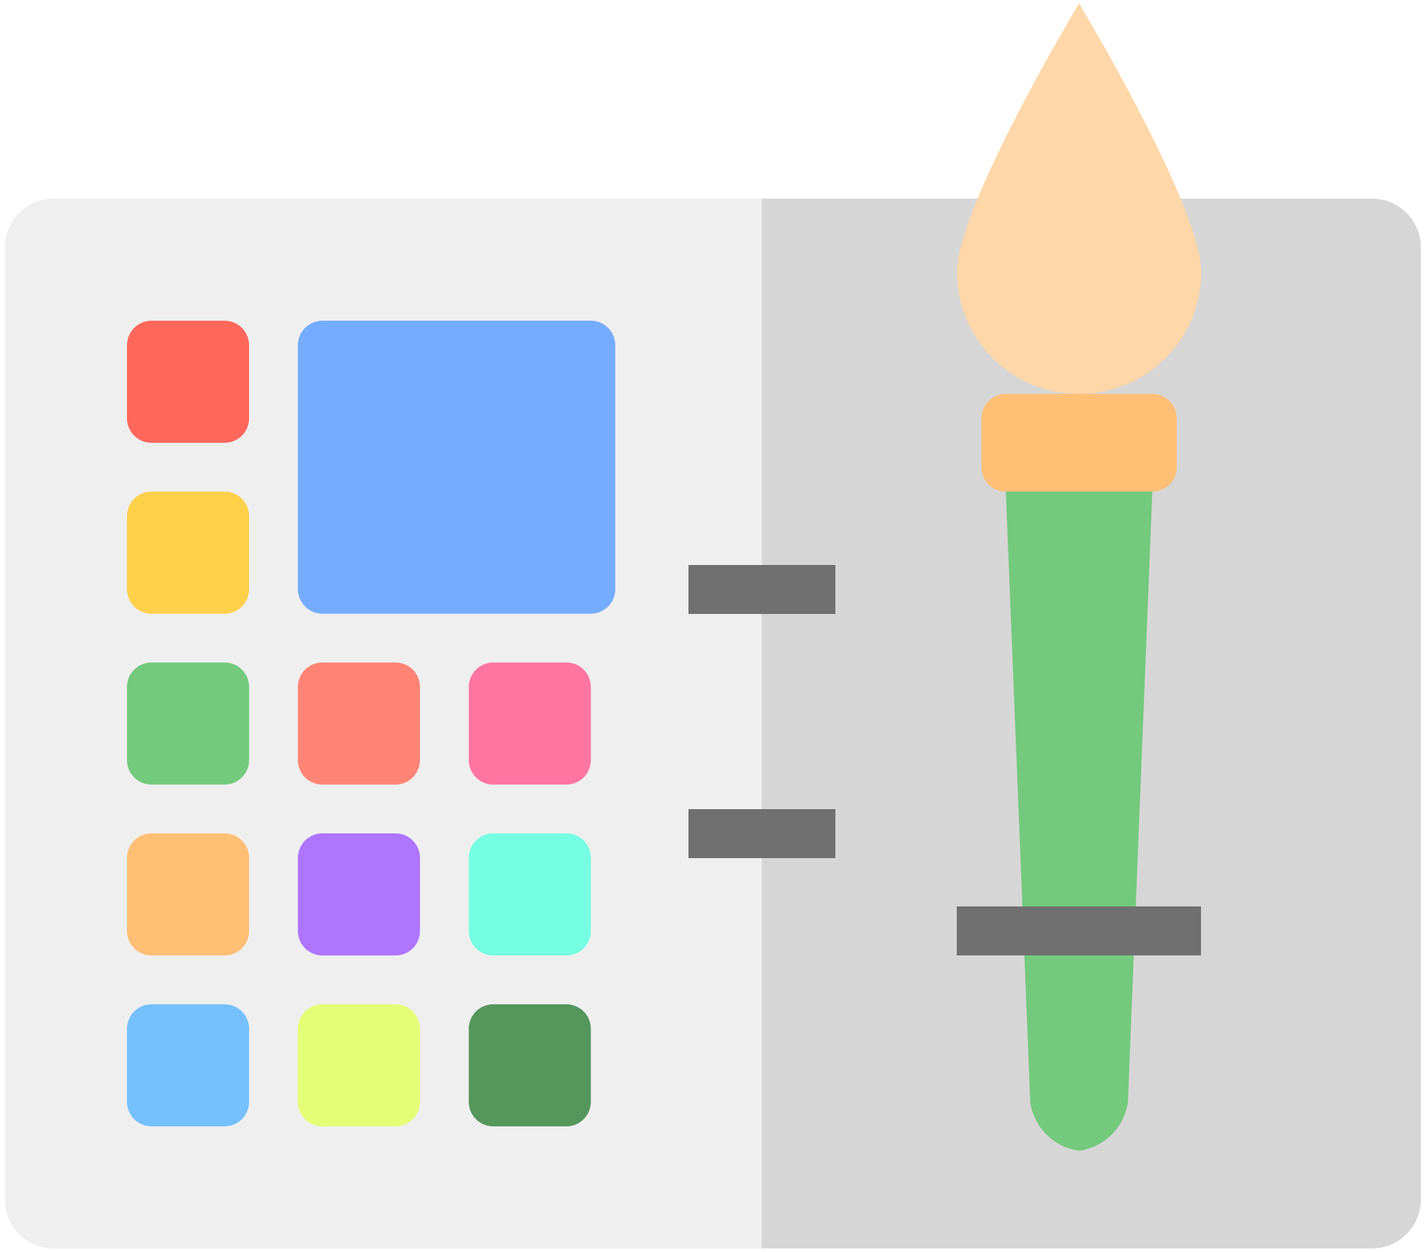

Follow the ant

Find A lizard & describe

Mounam

Help A Stranger Today

STEM DIY Toy

Starter Art Kit

Also Sell AS Kit on Amazon

1. Drawing book, Canvas book
2. Primary Colors with small empty paint containers & name stickers.
3. Apron for the kid & parents? -
4. Sheets to lay on the ground
5. Wall paper chart at kids height
6. Yoga mat - partner with Juru Yoga
7. Unlock all journeys on app
8. Painting stand with black & white board, magnetic board, canvas sheets
9. Week Activity Banner < build a wall>

The Problem

While school, society teaches kids & adults alike to think in categories, to make brain more efficient,to feed knowledge & formulas to live life by, focussing more on order, & trying to keep chaos at bay.

All kids content is either to make them efficient in facing the outside World or just something to engage them

There are less & less content these days, that respects them, treats them as superiors to us, in their unadulterated honesty.

How?

Philosophy across all products is the same. (Products/app/website /features - in the order of building)

1. **Curatedforkids.tv** - Freemium - easy to build on bubble. Curate some 50 movies & videos to launch the site. Eg: Miyazaki, Gods Must Be Crazy, etc , BBC videos, & stuff. Use these movies content etc to build an audience on social media.
2. **Createdforkids.kits** - Freemium - Activities Kits & Supporting Content.

- Every week mapped as journeys to unlock , different paths, active journeys, inactive journeys, activate journeys regularly, all reminders for kids, parents, Supported content, videos for parents , & for kids.
- First 3-4 weeks can be unlocked for free. Subscription model? Or First week free, then join cohort ? or what?
- We could add electronics, physics (deepest stuff like chaos, black holes etc), etc also as journeys - make each of them practical with kits & gamified into activities.
- Journeys & paths can keep branching & go deeper as we want to grow.

3. **Createdbykids.art** - pinterest/insta of kids' arts. Scroll through this instead for parents.
4. **Wonder Why!** - Quora for kids, but audio/video formats --- Chat Messenger for kids - discord, clubhouse
5. **Curatedforkids.art** - Art Museum
6. **Curatedforkids.reading - Book - Secret Life of Plants; Jagadish Chandra Bose - "Plants , Things all have life just like us"**
7. **Curatedforkids.products** - books, toys, music
8. **Createdforkids.Originals** - Original content (comics, etc) & Kits in collaboration with artists
9. **Curatedforkids.games -** outdoor, indoor, online, old times
10. Planned group outdoor activities & trips

Complete Package

Taste of all Art forms - Including Science
Related Curated Content For Kids , (& Parents?)
Individual, Group, Family Assisted, With Family Activities
Talent Times
Memoryline & Every Art Produced By Your Kid Forever

This is the beginning of a Kids Art World. Your kids are the founding team?

Createdforkids.kits

1. App - Parents download for kids
2. Createdbykids.art - open feature - kids & parents can scroll through art by kids. Like insta, but infinitely better content
3. Createdforkids.kits - Starts with Journey Screen - First activity will be unlocked, next 2 can be unlocked as they progress, after that subscribe
   - 1M, 3M , 6M, 1Y ?
4. Pricing ?
5. Kids can form groups , online - so kids can make friends here , & learn together. Do group activities , etc
6. 1 Activity per week or do at your own pace? - if do at your own pace - how will we send the kits?
7. For most activities kids can choose what art form they want to use. They can use any number of them. drawing , painting, singing, acting, etc
8. Every Weekend - Yoga for kids , parents can join (paid add on)

Show the whole journey

Communicate & form connections thru their work

Life is the same here & there
Stories Different & Actors Different
But Life is similar here & there

Ants build homes too, just as humans do
Birds have jobs too , just as humans do

Stones have atoms , just as humans have
Air has molecules , just as humans have

The dog feels happy or hungry, just like you
The Plants feel love & pain, just like you

Fish or insect or dinosaur, we all eat & we all excrete
Different shapes & different sizes,
But at the end, We are all the same.
