Game Play

Backdrop/bg card, nature cards, character cards & poses cards can be stacked over one another to create a scene - no limit on number of cards per scene (transparent cards with illustrations)
Players create scenes using the cards to create stories.
Players can also create new element cards using the blanks, for their story & earn additional points
The player with most points at the end, wins the round
Points are used like currency to buy Element cards
At the start of the game, each player is given 100 points to be used for building 1st scene, the players then build the 2nd scene with the points earned from the 1st scene and so on
Players can forego any round except 2 & 3, if they dont want to buy or submit a scene
At the end of the game 0-1 story can win an excellence award , awarded by consensus of the players, which will earn 75 points
Every Scene must have atleast 1 character & 1 Bg colour or Backdrop card - Min of 2 cards per scene
If the cue cards the player holds are not carried over in the scene, then per cue card not adhered will get -20 pts, but the unused cue card can be retained for 1 more scene & try to use it in that scene, if used player will get +10 points in addition to scene submission points. If unused again, player foregoes story submission in that roll & gives back the cue card
No 2 scenes can be eactly alike in one story, atleast 1 card must be different
Then Each Player rolls the 6 sided dice alternatively & follows the action according to the above Dice Table
A Scene can be submitted when a 6 is rolled & earn points for the scene
Take a photo of the scene, once submitted
Mix all the cue cards drawn in the round, back in the deck & shuffle
All the Elements cards bought can be reused in next scenes at a price
Players can choose to sell any of their Elements card at any time to other players at any price as agreed upon by the players
Players can also ask for buying , which can be accepted or rejected by other players
The players continue rolling the dice until one player announces story completion
A story should have a minimum of 3 scenes
Once a player completes their story, all players submit their story with all scenes - photo /cards along with a title + Blurb card
The photos of the title card+ scenes can be uploaded on insta & tag us - share your stories & creativity with the community

Cue Cards
