The goal of the game is to build stories using scenes & characters they build - based on the cues they get with dice rolls & card draws.

Players will paint the character cards and the scenes , then arrange the scenes into a story.

Step 1 : Roll 8 sided planet dice (needs 0pt in 1st round & 30pts in subsequent rounds to roll)

Step 2: Roll 12 sided Region dice (needs 0pt in 1st round & 20pts in subsequent rounds to roll)

Step 3: Draw A Being Card from a set of 30 Being cards

Step 4 : Choose To Draw A Character Card or
Pay 25pts to Roll Setting Dice & or Pay 50pts to Roll Powers & Disabilities Dice & then Draw A Character Card.

Step 5 : If the Character Card is Blank, Design a Character with the being, region & planet cues drawn & earn 50pts.
If the Character Card is already designed one, keep it & move on.

Step 6 : Draw A Scene Card (needs 0 pt is drawn right after drawing a character card & needs 35 pts if not after a character card).
If the Scene Card is already filled keep it and move on to step 9)

Step 7 : If scene Card is Blank, Draw a Cue Card.

Step 8 : Paint the Scene Card using the character drawn/designed , & the cue card for the scene & all the settings drawn.

Step 9: continue with the next round, either start from drawing a being card for free, designing a character & following the the same flow. Or choose to skip character design part and pay for a scene Card to design another scene for the same character, and same settings.
You can also choose to pay and roll Planet & Region dices for character design or use the same ones drawn before.

Goal : is to keep going in rounds until you can arrange the scenes into a story. Any story , any length , etc. but a story.

2+ people - split into teams, they continue as long as one team submits their story , at which point the other team must also submit their story.

Completing a story earns 50pts

All enjoy the story and score 1-5 on the following

1. Shortest 2. Longest 3. Funniest 4. Saddest 5. Trippiest 6. Randomest 7. Most artistic 8. Least artistic 9. Deepest 10. Silliest 11. Most detailed 12. Least detailed.

A story can be given an excellence award under one or more of the above categories which will earn the story and the players involved 75 pts. There can be 0-1 excellence award per game.

These scores on different criteria will be added on every time they play the game. If I'm playing solo, my points will increase. If 2 people are on a team, both will get the same score of the story. When I'm playing solo, I finish the story and send it to other players for scoring.

For every first 10 marks on each category, the player gets 25 pts that can be used in the game.

After that every 50 in each category earns the player(s) 20pts.
